

AI / ML / DL Usage Report

Tool	Uses	Single-Line Explanation
ChatGPT	AI + ML + DL	Uses deep learning transformer neural networks for generative AI conversations.
Google Gemini	AI + ML + DL	Multimodal generative AI powered by deep learning large language models.
Claude	AI + ML + DL	Deep learning-based transformer model for generative AI and reasoning.
Siri	AI + ML	Voice assistant using natural language understanding and machine learning.
Alexa	AI + ML	Smart assistant using machine learning for voice interactions.
Google Assistant	AI + ML	Voice assistant using ML for speech and command understanding.
Face Unlock	AI + ML + DL	Deep learning facial recognition for secure authentication.
Tesla Autopilot	AI + ML + DL	Deep learning computer vision for assisted driving.
Self-Driving Cars	AI + ML + DL	Neural networks and sensors enable autonomous navigation.
Netflix Recommendations	AI + ML	Machine learning recommends content from viewing history.
YouTube Recommendations	AI + ML + DL	Deep learning ranks videos based on user behavior.
Spotify Recommendations	AI + ML	ML analyzes listening habits to suggest music.
Amazon Recommendations	AI + ML	ML predicts products users may want to buy.
Gmail Spam Filter	AI + ML	ML classifies and filters spam emails.
Fraud Detection	AI + ML	ML identifies suspicious transaction patterns.
Credit Card Fraud Detection	AI + ML	Detects unusual card usage using ML models.

Google Maps Traffic	AI + ML + DL	Analyzes traffic data to predict travel conditions.
Uber ETA Prediction	AI + ML + DL	Predicts arrival times using historical trip data.
Weather Prediction	AI + ML + DL	Uses neural networks to analyze weather patterns.
Grammarly	AI + ML + DL	Deep learning improves grammar and writing suggestions.
Google Translate	AI + ML + DL	Transformer models translate between languages.
Microsoft Copilot	AI + ML + DL	AI assistant integrated into Microsoft products.
GitHub Copilot	AI + ML + DL	Generates code suggestions using deep learning.
Cursor AI	AI + ML + DL	AI-powered coding assistant and editor.
Replit AI	AI + ML + DL	AI coding platform with intelligent assistance.
Midjourney	AI + ML + DL	Generates images from text using deep learning.
DALL·E	AI + ML + DL	Creates images from natural language prompts.
Stable Diffusion	AI + ML + DL	Open-source diffusion model for image generation.
Adobe Firefly	AI + ML + DL	Generative AI for image and design creation.
Canva Magic Design	AI + ML + DL	AI-powered automated design suggestions.
Runway ML	AI + ML + DL	AI platform for video and image generation.
Synthesia	AI + ML + DL	Creates AI-generated videos with virtual presenters.
ElevenLabs	AI + ML + DL	Produces realistic AI-generated voices.
Suno AI	AI + ML + DL	Generates music from text prompts.
Chess Engine (Stockfish)	AI + ML	Uses advanced search and evaluation techniques.
Calculator	AI	Basic computational tool without ML or DL.
Rule-Based Expert System	AI	Uses predefined rules to make decisions.
Smart CCTV Detection	AI + ML + DL	Detects people using computer vision models.
OCR Text Recognition	AI + ML + DL	Recognizes text from images using neural networks.

Medical Image Diagnosis	AI + ML + DL	Analyzes medical scans for diagnosis support.
Cancer Detection Models	AI + ML + DL	Identifies cancer patterns in medical data.
Modern Chatbots	AI + ML + DL	Conversational AI powered by transformer models.
Ticket Routing	AI + ML	Automatically classifies support tickets.
LinkedIn Recommendations	AI + ML	Matches jobs to users using ML.
Facebook Feed Ranking	AI + ML + DL	Ranks feed content using deep learning.
Instagram Explore	AI + ML + DL	Recommends content based on user activity.
Perplexity AI	AI + ML + DL	AI search assistant with reasoning capabilities.
NotebookLM	AI + ML + DL	Analyzes and summarizes documents using AI.
